

Be a part of the big national Danish questionnaire survey about pain in relation to COVID-19 (coronavirus)

The purpose of this research project is to investigate whether you suffer from long-term sequelae after having had an infection with COVID-19. The survey will specifically focus on pain after COVID-19. Your participation in the survey will be of great importance to gain new knowledge about long-term sequelae after COVID-19. It takes approx. 10 minutes to fill in the questionnaire. We sincerely hope that you will help the researchers and doctors to gain knowledge about pain after COVID-19 and thus contribute with new knowledge which may ultimately ensure better treatment of sequelae after COVID-19.

Dear participant in the questionnaire

You receive this invitation because you previously have tested positive in a PCR test because of COVID-19. The nationwide research project is carried out by the Danish regions in collaboration with experts from hospitals and universities. We sincerely hope that you would like to participate and take the time to fill in the questionnaire as your participation is of great value.

How to answer the questionnaire

To participate in the survey, please return to the invitation you received in your e-Boks and click on the link to the questionnaire. It takes approximately 10 minutes to answer the questions. You can also answer the questionnaire on any mobile unit by logging into your e-Boks on the unit and then click on the link. Your answers will be stored continuously. Therefore, if you need a break or are interrupted, you can resume the questionnaire from where you left.

Deadline for answering the questionnaire is the 7th of September.

Kind regards and thank you in advance for your help!
